### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: the Title of Invention has been replaced with --INTERNALLY ASYMMETRICAL BOLT CARRIER-- to better describe the claimed subject matter.

### *Allowable Subject Matter*

2. Claim 1 is allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art of record neither discloses nor fairly teaches the recited limitations of the claimed invention including, but not limited to: a bolt housing/carrier that is asymmetrically machined internally to include at least a first protrusion that aligns with and also supports the head of an extractor when the bolt is fully closed.
4. This statement is not intended to necessarily state all the reasons for allowance or all the details why the claims are allowed and has not been written to specifically or impliedly state that all the reasons for allowance are set forth (MPEP 1302.14).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
